

How to create a free AWS account.

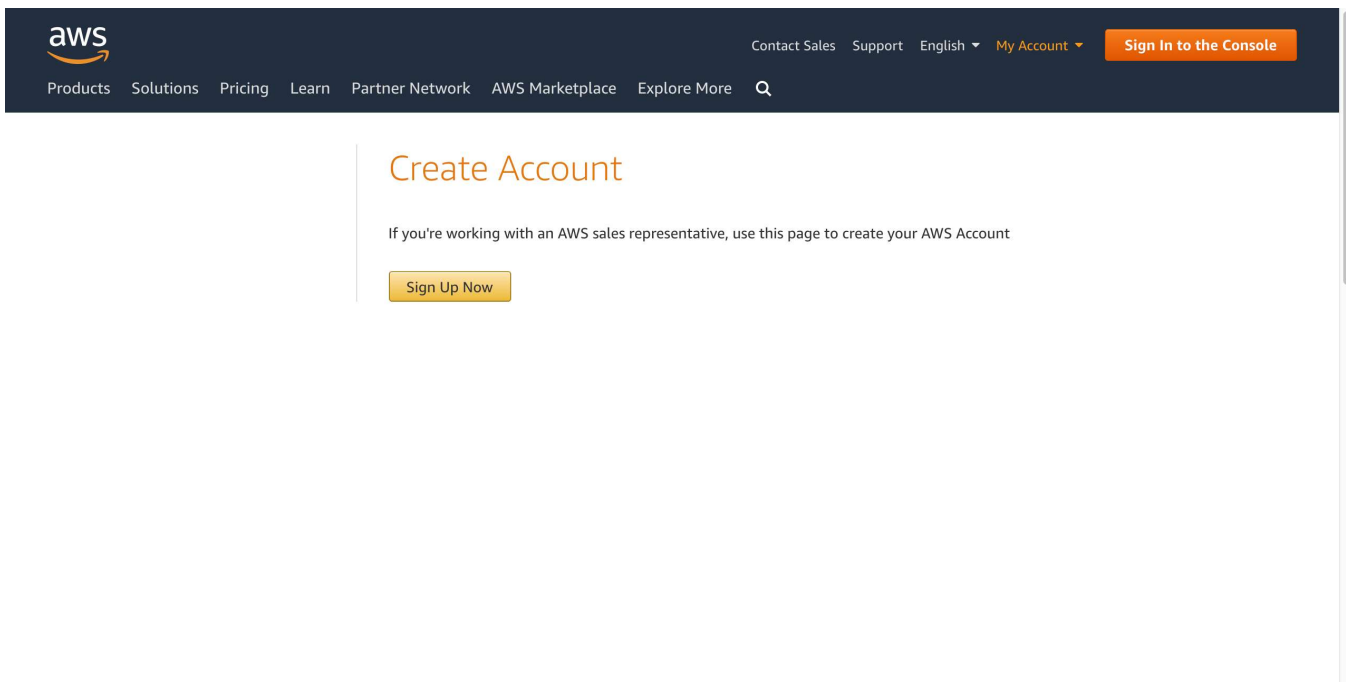

Send With SES

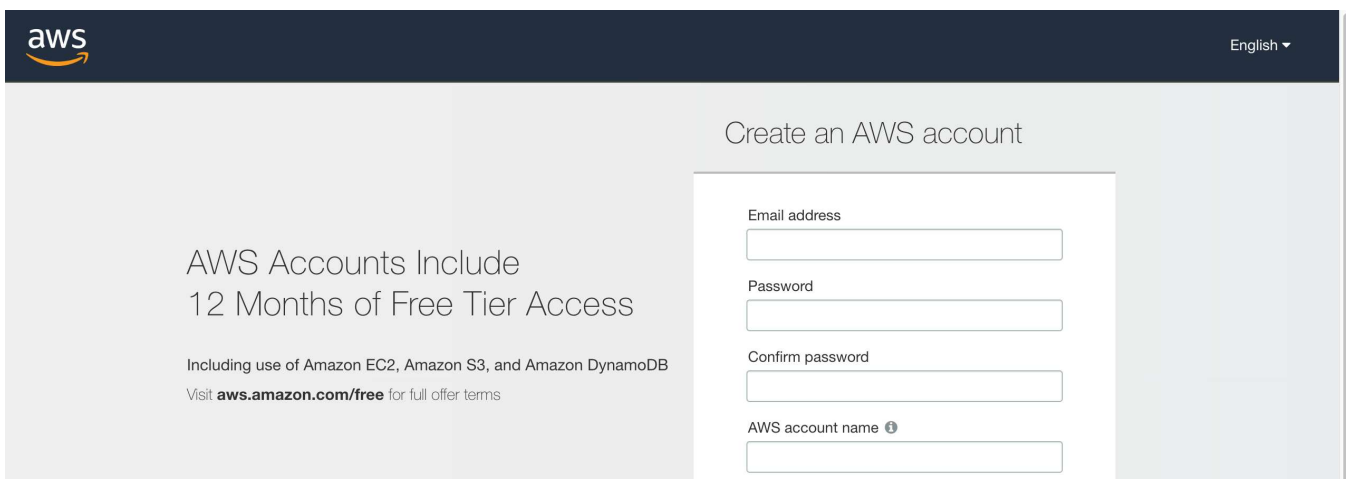

Nov 13, 2018 · 3 min read

Note: AWS will ask you for your credit/debit card when creating an account. However you will not be billed until you exceed the (generous) free tier.

1. Go to <https://aws.amazon.com/resources/create-account/> and click 'Sign Up Now'.

2. Fill in below details and click 'Continue'.

3. More details ... :). Make sure to give your correct mobile number. This will be used to give you a verification call.

This screenshot displays the 'Contact Information' form on the AWS account creation page. The form is titled 'Contact Information' with a note 'All fields are required.' The instructions state: 'Please select the account type and complete the fields below with your contact details.' The form includes the following fields:

- Account type**: Two radio buttons, 'Professional' (selected) and 'Personal'.
- Full name**: A text input field.
- Company name**: A text input field.
- Phone number**: A text input field.
- Country/Region**: A dropdown menu currently showing 'United States'.
- Address**: Two stacked text input fields. The first is labeled 'Street, P.O. Box, Company Name, c/o' and the second is labeled 'Apartment, suite, unit, building, floor, etc.'.
- City**: A text input field.
- State / Province or region**: A text input field.
- Postal code**: A text input field.
- Agreement**: A checkbox followed by the text 'Check here to indicate that you have read and agree to the terms of the AWS Customer Agreement'.

A yellow button labeled 'Create Account and Continue' is located at the bottom of the form. The footer of the page contains the copyright notice and links for 'Privacy Policy', 'Terms of Use', and 'Sign Out'.

4. Enter your credit/debit card details. To verify your card AWS will bill you a small token amount which will be refunded. Other than this you will not be billed anything unless you exceed the (generous) free tier.

Payment Information

Please type your payment information so we can verify your identity. We will not charge you unless your usage exceeds the [AWS Free Tier Limits](#). Review [frequently asked questions](#) for more information.

 As part of our card verification process we will charge INR 2 on your card when you click the "Secure Submit" button below. This will be refunded once your card has been validated. Your bank may take 3-5 business days to show the refund. Mastercard/Visa customers may be redirected to your bank website to authorize the charge.

Call Me Now

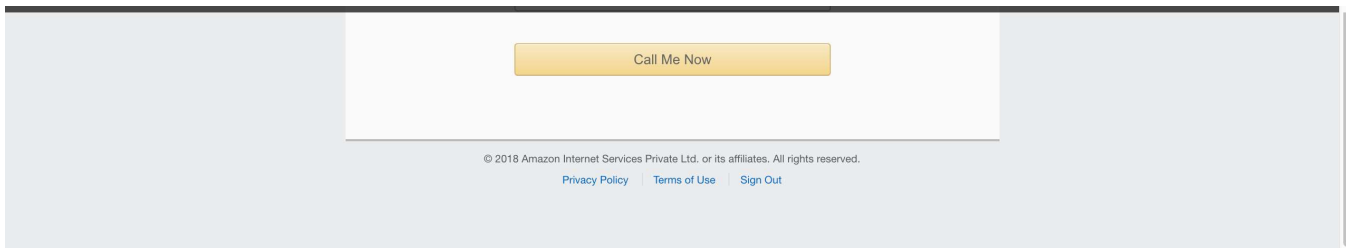

© 2018 Amazon Internet Services Private Ltd. or its affiliates. All rights reserved.

A popup with a number code will be displayed. You will receive a call from AWS and you will be prompted to enter this code.

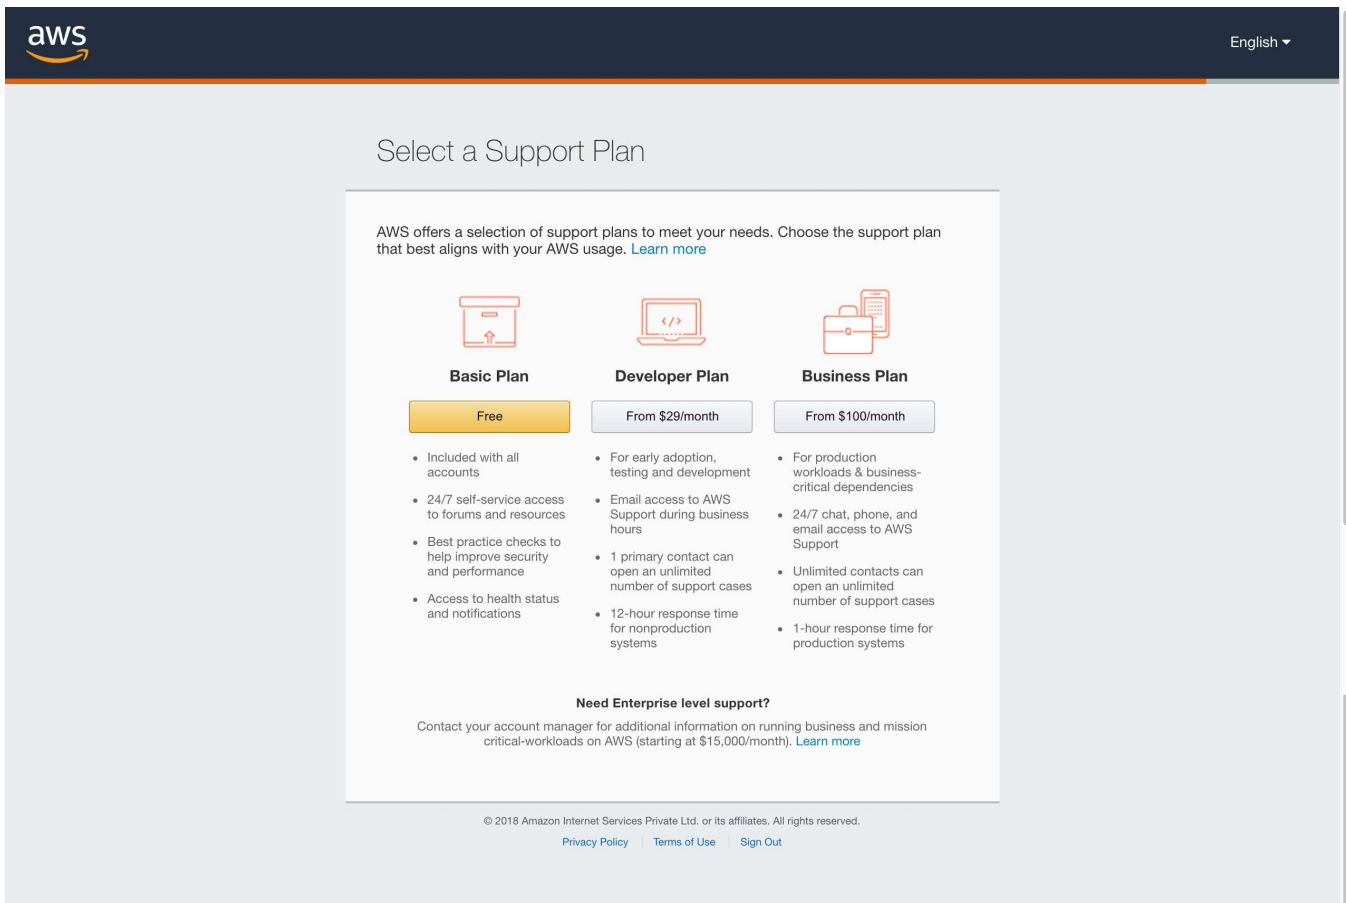

Success. Your identity is verified.

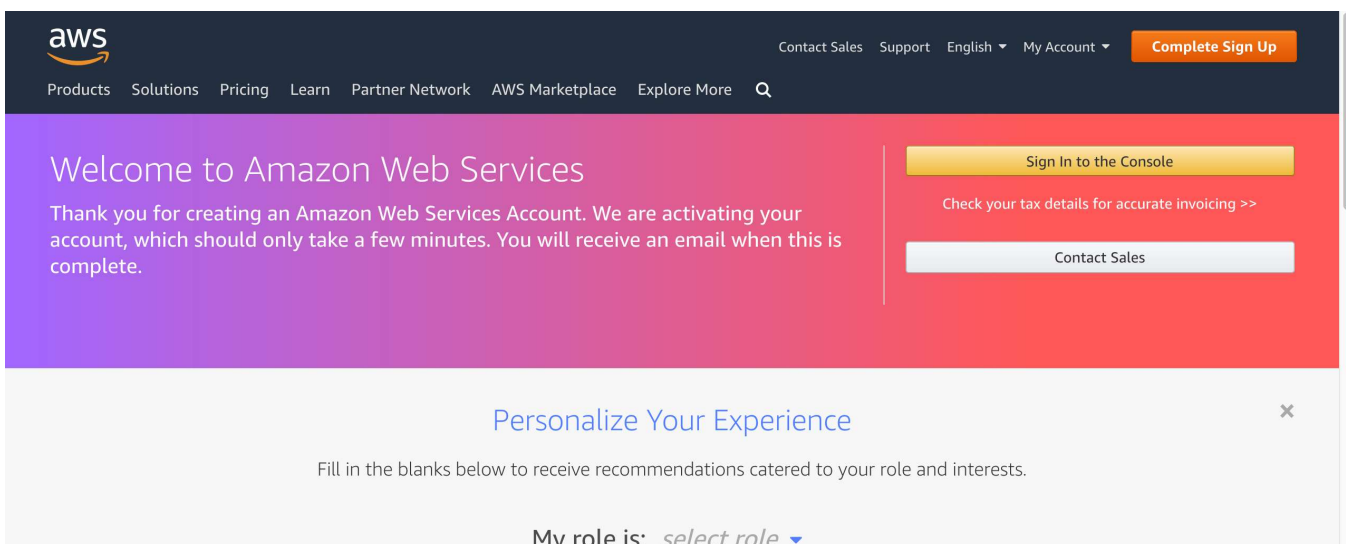

6. You may be asked to select a 'Support Plan'. Choose 'Free'.

7. **CONGRATS.** You have created your AWS account. Check out the generous 'Free Tier Details' here: <https://aws.amazon.com/free/>.
